CASE STUDY

Parkshore Wealth Management Strengthens IT Operations to Support Firm Growth

Tailored technology support helped this wealth management firm scale with confidence.

Client: Parkshore Wealth Management

Industry: Wealth management

Location: Offices in Granite Bay and Folsom, California

Services: Financial planning, investment management, tax planning, and fiduciary advisory services for individuals and families

GroupOne's Approach

GroupOne IT focused on understanding Parkshore's business requirements before making changes.

Key Actions:

- Reviewed existing systems to identify operational gaps and inefficiencies.
- Designed solutions tailored to the firm's size, goals, and growth plans.
- Provided proactive and responsive support to keep systems running smoothly.

Executive Summary

Parkshore Wealth Management needed IT support that understood their size, structure, and regulatory environment. GroupOne IT analyzed their existing systems and delivered tailored solutions that improved operational efficiency, strengthened stability, and supported continued growth.

Challenges

- Rapid growth created pressure on existing technology systems.
- Legacy tools limited efficiency and scalability.
- The firm needed IT support that aligned with its business model and compliance needs.

Solutions

- Streamlined IT operations through customized system improvements.
- Implemented scalable technology that supported firm expansion.
- Delivered consistent service that addressed issues quickly and thoroughly.

“When we founded our firm back in 2008, GroupOne was our first professional relationship. As we have grown, GroupOne has demonstrated an understanding of our size, limitations, and unique business requirements. Their team meticulously analyzed our existing systems and implemented tailored solutions that streamlined our IT operations. Our partnership with GroupOne IT has been instrumental in our growth and stability. Their unwavering dedication to client satisfaction, coupled with their fast, thorough, and comprehensive service, has elevated our operational capabilities and positioned us for continued success in the dynamic landscape of financial advisory services. We wholeheartedly recommend GroupOne IT to any organization seeking reliable and proactive IT support tailored to their specific needs.”

Daniel Andersen,
Co-founder, CFP in Parkshore Wealth Management

Results:

- Parkshore Wealth Management gained more efficient and stable IT operations.
- Technology improvements supported continued growth without added complexity.
- The firm strengthened its operational foundation with reliable, proactive IT support from GroupOne IT.
